## PRES. HUERTA NOW EXPECTS INTERVENTION

Asks State Governors How  
Many Troops They Can  
Furnish Government

## AMERICANS STILL LEAVING

Mexican Officials Fear Gen-  
eral Blockade by the U. S.  
on Thursday

MEXICO CITY, Nov. 18.—Members  
of the German and Austrian colonies  
held a meeting tonight and discussed  
plans of defense in case disturbances  
occur in the Mexican capital.

MEXICO CITY, Nov. 18.—By Presi-  
dent Huerta's friends, the attitude of  
the executive is described as one of  
expectancy and curiosity as to the  
prospective action by the United  
States, rather than one of anxiety.  
They say he has given them no indi-  
cation of changing his mind about not  
resigning, and is proceeding with the  
affairs of the government with all  
quickness.

They add that he regards as prob-  
able intervention by the United States,  
and an order was sent today to the  
state governors to report immediately  
how many soldiers they can furnish  
ready by November 30. The official  
explanation of this is that it is merely  
part of the plan announced in a recent  
order increasing the army to 150,000  
men.

**Americans Leaving.**  
The departure of Americans from  
Mexico continues, although in decreas-  
ing numbers, which indicates that the  
great majority of those intending to  
leave have already gone. A train for  
 Vera Cruz, with scores of refugees  
on board, was held up tonight in the  
straight yards by the burning of several  
oil tank cars.

Invitations to the opening of the  
Mexican congress, have been sent to  
the United States, and the American  
charge d'affaires, Nelson O'Shaughnessy,  
dined tonight with Sir Lionel  
Gordon at the first official dinner  
given by the British representative.

No new instructions from Washing-  
ton have been received at the embassy,  
according to the charge, who is re-  
porting daily to the state department  
on political conditions here.

**Fear Blockade.**  
Fearing that a blockade may be es-  
tablished coincident with the installation  
of congress on Thursday, officials at  
the national palace are showing  
anxiety regarding the shipment of  
5,000 rifles due at Vera Cruz tomorrow.

The recruiting campaign by conscrip-  
tion is being carried on vigorously, and  
there is little doubt that the number  
of men now ready for service is greater  
than the supply of rifles. Failure to  
send this shipment would be embar-  
assing to the department.

The committee of the new congress  
had under consideration for several  
hours today the credentials of the new  
members. President Huerta is said to  
(Continued on Page Two.)

## VICTORIA FALLS AFTER 49-HOUR BATTLE IN CITY

## BLOODIEST FIGHT OF THE REVOLUTION

Property Loss Very Heavy;  
Streets Filled With the  
Slain

BROWNSVILLE, Tex., Nov. 18.—  
With the loss of hundreds of lives and  
the great destruction of property in  
this town, Pablo Gonzalez, rebel com-  
mander, describes as the "bloodiest  
battle of the revolution," Victoria, capital  
of the Mexican state of Tamaulipas,  
was captured by Constitutionalists  
today.

(Continued on Page Two.)

## TO SUBMIT TWO BUDGETS TODAY

DOCUMENTS READY FOR  
CITY COUNCIL

In One Tax Levy Is Placed at  
Seven Mills; Half Mill  
More in Other

State Historical and Natural History Society  
The 7-mill budget will include all  
expenses considered absolutely neces-  
sary for the existence of the various  
departments. With the half mill addi-  
tional several items of much good to  
the city will be included in the list.  
One-half a mill will add \$18,785.65 to  
the city's revenue.

The 7-mill budget will provide all  
necessary expenses for the depart-  
ments of public works and properties,  
health and sanitation, water, public  
safety, finance, parks and the public  
library. In this 7-mill budget are in-  
cluded appropriations for the depot  
commission, the visiting nurse asso-  
ciation, and donations to the Asso-  
ciated Charities and other benevo-  
lences.

**Provides For Improvements.**  
In the budget based on a levy of 7 1/2  
mills, the mayor has included amounts  
to hire a policeman, build a public  
rest room, complete the city  
fire alarm system, construct a conduit  
over Shooks run for the St. Francis  
hospital street car line, build sewer  
extensions, repair South Nevada ave-  
nue, near the underground, and pro-  
vide a city wood yard to furnish work  
for the unemployed.

Mayor McKesson has faced the propo-  
sition of preparing the two budgets,  
so that nothing of vital importance be  
left out on the smaller valuation and  
none save expenditures of good to the  
city be put in the larger valuation  
budget. The city commissioners have  
felt that the city needs a public com-  
mission station, and for several years this  
matter has come up annually for con-  
sideration.

The Civic League has recommended  
that a policeman be employed at a  
cost of \$1,500 a year, and a woman official  
to Mayor McKesson, a woman official

## ELLIS TO TELL OF LEVANT'S PROGRESS

Noted Lecturer Will Talk of  
Observations Abroad to  
Winter Night Club

Because of his extensive travels in  
far eastern countries and his ex-  
haustive study of conditions there, the  
customs, ideals and beliefs of the peo-  
ple—the lecture by William T. Ellis  
of Swarthmore, Pa., before the Winter  
Night club, at the Antlers tomorrow  
night, will be one of the most interest-  
ing and instructive talks to be given  
before the organization this season.

Mr. Ellis will talk on "America at the  
Crossroads," the lecture being descrip-  
tive of the worldwide influence of the  
United States commercially, politically  
and in a religious way.

Tomorrow night's meeting will be the  
first regular session of the Winter  
Night club this year, last month's  
meeting being one held over from the  
1912-1913 schedule. Immediately after  
the dinner and preceding the lecture,  
the general meeting of the organiza-  
tion will be held, at which time offi-  
cers for the ensuing year will be elected  
and new members announced.

**A Writer of Note.**  
William T. Ellis is a well-known lecturer  
and writer. Mr. Ellis is much sought  
after as a public speaker and the Win-  
ter Night club considers itself for-  
tunate to be able to secure the services  
of such a noted man. During his  
travels over the world, Mr. Ellis usually  
has been connected with several  
metropolitan newspapers and maga-  
zines. Writing under the pen name of  
"The Religious Rambler," he has won  
much fame in the literary world.

Being especially interested in the

## Fiftieth Anniversary of Lincoln's Gettysburg Address

OUR SCORE and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal. Now we are engaged in a great civil war testing whether that nation or any nation so conceived and so dedicated can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But in a larger sense we cannot dedicate, we cannot consecrate, we cannot hallow this ground. The brave men, living and dead, who struggled here, have consecrated it far above our power to add or detract. The world will little note, nor long remember, what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us, that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we here highly resolve that these dead shall have not died in vain; that this nation, under God, shall have a new birth of freedom, and that government of the people, by the people, and for the people shall not perish from the earth.

Abraham Lincoln  
February 12 1809 April 15 1865

TODAY is the fiftieth anniversary of the dedication of the new battlefield cemetery at Gettysburg. The ceremonies at the cemetery were similar in character and followed what was described in the newspapers as "a grand civic and military display." In the presence of 15,000 people, including men, women and children, chiefly residents of the town and vicinity, drawn to the scene partly by a desire to see and hear Lincoln, the important address, spanning "four score and seven years ago" was the real dedicatory speech, although it followed after a lengthy oration by a master orator, Edward Everett. It was an informal production, drafted hastily on the trip up from Washington.

The work of reintering the federal dead from the battlefield was not yet completed, but there were 600 unburied remains in the ground hallowed by the dedication and 582 unknown. Lincoln's words might have been spoken of any battlefield of the conflict. In saying "we are met on a great battlefield," he expressed the national estimate then held of the battle of Gettysburg as only one of many. Further along he seemed to grasp the future, for he said of the dead sleeping their last sleep there, "The world can never forget what they did here." Linked with their memory is that brief, but matchless tribute.

## PARLEYS WITH CARRANZA END

Constitutionalists Become Ar-  
rogant in Attitude To-  
ward U. S.

NOGALES, Sonora, Nov. 18.—Francisco Escobedo, minister of foreign relations in the Carranza cabinet, asked William Bayard Hale, President Wilson's agent, late today, to present his credentials before continuing further parleys with the conference which has been under way here since November 12 days.

(Continued on Page Two.)

## STRIKERS ARRESTED FOR DISTURBANCES

House Wrecked by Explosion  
Out of His Bed

TRINIDAD, N. M., Nov. 18.—Three strikers were arrested this afternoon at the Valdez mine near Santa Fe for striking nonunion miners. The arrests were made by the military authorities and the men were brought to the city and held in a military escort and held in the city jailhouse at Camp Trinidad. They will be brought before the court tomorrow.

(Continued on Page Three.)

## BAR ASIATICS IS PLEA OF LABOR

Demand Federal Investigation  
of the Colorado Coal  
Strike

SEATTLE, Wash., Nov. 18.—With only a dissenting vote, the American Federation of Labor passed today a resolution regarding the operation of the Asiatic bar in the coal fields of Colorado. A two-hour debate on the subject, which most of the leading members of the federation spoke, making clear that they opposed the discrimination against Asiatics who would be the primary exploiters and whose coming would tend to drive the American strikers out of the mines.

(Continued on Page Two.)

## GEN. SCOTT SENT TO SEE NAVAJOS

Will Be Escorted by  
Troop Squadron

General Uprising in New Mex-  
ico Feared Unless Action  
Is Taken at Once

WASHINGTON, Nov. 18.—In the hope that the Navajo Indians who are now defying the government authorities at Beautiful Mountain, New Mexico, may be induced to yield peacefully and surrender the eight companies sent to be arrested, the war department today ordered Gen. Hugh L. Scott, commanding the Second cavalry brigade at Fort Bliss, Tex., to proceed in haste to the Navajo agency to confer with the Indian chiefs.

General Scott is singularly influen-  
tial with the Navajos, whose language he speaks. He has always been re-  
garded by them as their best friend  
and it is believed that he will be able  
to placate them.

The general's instructions are to  
confer with Major McLaughlin, the In-  
dian agent, before beginning his con-  
ference. To back his mission with a  
show of force, orders were also sent to  
Capt. Robinson, N. M., to march and  
disappear to the Navajo agency, a full  
squadron of the Twelfth cavalry re-  
siding at General Scott's report.

**Lane Calls for Troops.**  
The war department acted at the  
request of Secretary Lane who today  
received a telegram from Major Mc-  
Laughlin. The latter reported that to  
defy under the arrest of the re-  
sident Navajos, who have been de-  
fying the law for two months and to  
whom every reasonable opportunity for  
surrender has been given, the Navajo  
chiefs are now openly hostile.

Secretary Lane said he had been  
averse to the use of troops, but now  
felt that it was demanded.

**Have Donned War Paint.**  
HARMINGTON, N. M., Nov. 18.—  
With several thousand at many  
points on Beautiful Mountain, where  
1,000 Navajo Indians have gathered  
themselves in open defiance of the  
Washington government, and with the  
Indian holding war dances and sing-  
ing their ancient war songs, the situa-  
tion on the Navajo reservation, where  
an Indian uprising exists, is one  
likely to give Agent W. H. Shelton at  
the shiprock agency grave concern.

Agent Shelton has a force of 30  
deputies all heavily armed on guard  
at the agency. While Indian police  
working in regular shifts throughout  
each 24 hours, find it almost impos-  
sible to guard against a surprise  
attack by the Navajo Indians should  
they attempt an offensive movement.  
The meantime, Agent Shelton and  
Major McLaughlin are awaiting the  
arrival at Shiprock of General Scott  
from El Paso, Tex., and the wonder-  
ful United States cavalry from Fort  
Robinson, N. M., with its 600 ap-  
provisioned.

## Suffragist Waits All Day to Be Arrested

WASHINGTON, Nov. 18.—Miss Lucy  
Burris sat around national suffrage  
headquarters here nearly all day today  
waiting to be arrested on a charge  
of violating a district ordinance by  
chalking sidewalks to advertise a suf-  
frage meeting. The police did not ap-  
pear and finally, in the afternoon,  
Miss Burris donned her bonnet and left  
for Philadelphia to fill an engagement,  
remarking that one could not be ex-  
pected to wait all day for an officer to  
come with a warrant.

## LATER LETTERS FROM LEGISLATORS MORE FAVORABLE TO CALLING EXTRA SESSION

Out of Eleven Replies Received Yesterday Six  
Favor Plan; Only Two Are Opposed

Letters received by Thomas E. Thomas yesterday in reply to his letter suggesting a special session of the legislature to settle the coal strike were much more favorable than those received Monday. Out of 11 replies received, only two were decidedly opposed to a special session, one was of the opinion that it was not necessary, two were noncommittal, and the others, six, were heartily in favor of the plan.

Among those favorable to the plan was John W. Wood of Clear Creek, one of the Democratic leaders in the legislature. His opinion carries considerable weight among the legisla-  
tors.

(Continued on Page Two.)

## 25 TO 40 MEN ENIOMBED BY MINE BLAST

Explosion Occurs at Acton,  
Ala., in A. F. & I. Co.  
Properties

SEVERAL DEAD RECOVERED  
Rescue Crews Rushed to Scene  
of Disaster; Cause Due  
to Dust Ignition

ACTON, Ala., Nov. 18 (Wednesday).—The bodies of 16 men killed in the explosion late yesterday afternoon in mine No. 2 of the Alabama Fuel & Iron company, near here, had been found by rescue parties up to 1 o'clock this morning. Six of the miners who were entombed by the explosion had been rescued alive. The number of miners still missing and supposed to be shut up in the mine is variously estimated at from 10 to 20. It having been reported that 45 men, the majority of them white laborers, entered Tuesday morning for work, how many left the workings before the explosion occurred has not been ascertained.

The bodies of nine of the victims have been identified. At 4 o'clock this morning the rescuers, who began work about 8 o'clock last night, came upon the bodies of seven miners at the sixth entry to the mine, but these had not been identified early this morning. The rescue crews are still at work in the mine, hoping to penetrate the fallen mass of coal and rock, loosened by the explosion, and save those who are still in the workings, if there be any alive.

**Terrible Loss of Life.**  
ACTON, Ala., Nov. 18.—Nine miners are known to have been killed and at least a dozen others were still missing at a late hour tonight, as the result of an explosion this afternoon in the Alabama Fuel & Iron company's mine No. 2, near Acton.

Five men had been dug out of the mine alive by rescue crews up to 11 o'clock tonight. At that hour, mine officials expressed the belief that the death toll would not exceed 14, although estimates of the number missing varied at from 12 to 20. It is stated that 45 men, the majority of them white, went into the workings early today, but there was no means tonight of ascertaining the number who had left before the explosion occurred.

Experienced miners expressed the belief tonight that many of these still underground had been killed by the force of the explosion.

**Due to Dust Ignition.**  
The explosion is believed to have been caused by ignition of dust, set off by a miner's shot.

Rescue work was undertaken in a systematic manner. The new federal automobile ambulance made a quick run of 34 miles from Birmingham, arriving here simultaneously with the Tennessee Coal & Iron company's rescue car, dispatched by special train. The mine fan, which was not damaged by the blast, was set in motion at once.

Those in charge of the rescue work hope to penetrate the mass of rock and coal jarred down by the explosion before morning.

The mine was comparatively new and was said by officials to have been provided with modern equipment throughout.

## WARREN M. PERSONS, PROGRESSIVE, EL PASO.

Clarence O. Finch, Democrat, Sedgwick.

John Mayer, Republican, Las Animas.

Felix B. Tait, Democrat, Denver.

Chester E. Smedley, Progressive, Denver.

Senator Arthur Comforth, Republican, El Paso.

Senator William C. Robinson, Progressive, El Paso.

Agitated a Special Session.

Senator R. F. Carver, Democrat, Jefferson.

Thomas M. Howell, Republican, Fremont.

W. D. Wright, Jr., Democrat, Denver.

Adding these to the replies received Monday, nine have declared themselves in favor of an extra session and six against, with two noncommittal. The two noncommittal legislators are the senators from El Paso county. Senator Robinson writes as follows:

If a special session of the general assembly is called I will vote for the passage of an arbitration act if it can offer a fair and reasonable remedy of the present evils in the coal fields. The

## SPECIAL CHURCH SERVICES TO BE HELD THANKSGIVING

Springa Ministers Complete Program for Exercises in Many Sections of County—Proclamation Issued

The committee in charge of Thanksgiving services throughout the county met yesterday and completed arrangements for the observance of the day and drew up a proclamation. The day promises to be a full one for all communities in the county. Church services will be held at 11 o'clock in the morning, and after the preaching dinner will be served in the various school houses. In the afternoon agricultural talks will be given. The pastors of Colorado Springs will preach at the services.

Automobiles will take the ministers to the places where they will deliver their addresses and return them to the city in the afternoon. The autos will leave the Y. M. C. A. at a o'clock Thursday morning. The committee in charge of arrangements is as follows: Dr. Samuel Garvin, County Commissioner; Van E. Rouse, John Lehn, chairman of the agricultural committee of the Chamber of Commerce; W. H. Lauck, county agriculturalist; and F. E. Kohler, president of El Paso County Sunday School association. The proclamation as drawn up yesterday follows:

**Much Cause for Thanksgiving.**  
"Unusual blessings have come to the people of El Paso county in the year 1913. Never in her history have the products of her soil been so numerous and valuable. The husbandman has never before reaped so rich and varied a harvest. Seldom has he received so large return for what he has brought to the market, not only does he look upon the present with satisfaction, but the future is bright with promise. The season has been propitious. No blight has fallen. In the midst of prosperity and plenty there has been peace and happiness. Health has prevailed. No plague has come near our dwellings. Grateful to Almighty God for these and all other blessings it seemed fitting we should in a signal way celebrate this thanksgiving season; that the people of the whole county should come together in convenient places of assembly and return thanks to the Giver of every temporal, as well as spiritual, blessing.

"To give opportunity for public praise and to further promote the spirit of good will and brotherly love that so happily unites the city of Colorado Springs and her neighboring municipalities with the rural districts, the ministers of Colorado Springs and vicinity will lead the people in their devotions according to the following schedule."

The list of churches where services will be held together with the names of the ministers who will preside, follows:

City of Colorado Springs.	
(10:30 o'clock)	
Place	Preacher
First Presbyterian	Rev. Merle N. Smith
Second Central National	Rev. John T. Smart
Second Presbyterian	Rev. Henry I. Kohler
(11 o'clock)

Fountain	Widefield and Wigwam
It will be supplied by pastors from Fountain.	

## CHRISTIANS SHOULD NOT BE INDIFFERENT

The Rev. Benajah Pratt last night addressed the last meeting of the second week of the series of evangelistic services. The crowd completely filled the First Methodist church. The sermon was the last one to be addressed mainly to Christians and was from the text, "Take Ye Away the Stone" from John 11:19. Rev. Pratt said in part: "There was one home near Jerusalem where Jesus loved very much to be. There he found friendship and tranquility. It is a great thing to have a home into which Christ loves to come. There are homes of church members in Colorado Springs where he would be uncomfortable and where the inmates would not be at ease in his presence. The setting of the home would be out of harmony with him. Would you need to make changes in your home if he should come to be your guest tonight?"

A messenger came to Jesus in Perea to tell him that Lazarus was sick in that dead home in Bethlehem. When Jesus reached the place, Lazarus was dead. As he stood with the weeping sisters of the dead man and the multitude before the tomb he commanded them to take away the stone from the entrance and then in obedience to his summons the man who had been dead walked forth.

## SEVEN ARE ELECTED ON NOMINATING COMMITTEE

Chamber of Commerce Holds Meeting and Names Those Who Will Nominate Candidates for Vacancies

The regular monthly meeting of the Chamber of Commerce was held last night in the rooms of the organization in the Burns building. Many of the new members who joined the association during the recent "War of the Roses" were present and much business was transacted.

The most important act of the meeting was the selection of a nominating committee which is to nominate the candidates for the vacancies in the board of control and board of directors at the annual election the second Thursday in December. There being 40 vacancies in the former and 10 in the latter.

The election of the nominating committee was spirited, there being 20 candidates for the seven places on the committee. The by-law covering the selection of this committee states that it shall consist of seven members, at least five of whom shall not be members of the board of control or of the board of directors. The seven selected as the committee are as follows: Joseph G. Dern, Van E. Rouse, L. A. Puffer, Frank Wolf of Colorado City, P. P. Evans, Dr. F. O. Hanford and W. Daniels.

## ELLIS TO TELL

(Continued From Page One)  
countries and peoples of the Levant. Mr. Ellis has devoted the most of his time to a study of that part of the world. During his observations he has noted particularly the effects of American methods on the far east and is perhaps better informed of the work of people of this country than any other person. Mr. Ellis has traveled extensively through Turkey, China and the Balkans and his observations of conditions in these countries have been given much publicity.

Writing in the larger magazines the traveler has told of customs and conditions which few people knew existed. It is seemingly the purpose of Mr. Ellis to study more carefully the matters which other travelers have passed by. His interviews with the great ecclesiastical dignitaries of the east today are especially worthy of public notice.

**New Members Elected.**  
New members elected to the Winter Night club are as follows: J. V. Brett, Walter H. W. Cogan, Theodore W. Guise, William D. Hemming, Willie R. Jameson, Lucius P. Lawton, G. H. Logan, C. I. McKesson, H. Hott Stevens, Daniel Thibault, Dr. Herman Trossbach.

Maurice B. Biscoe of Denver also was elected as a nonresident member.

## TO SUBMIT TWO BUDGETS

(Continued From Page One)  
should do much for the city. The railroad company has agreed to build a bridge over South Ave. in return if the city will repair the street near the bridge. In case the city will not repair the street, the railroad will not build the bridge. The city will be able to build the bridge if it will repair the street.

**"Wheel Corns Gone! 'Gets-It' Did It!"**  
Ever Try It Before?—You'll Marvel How It Makes Corns Vanish.  
There never was anything like "GETS IT" for corns and there isn't anything like it now. It is the corn cure on a new principle. Put it on any corn in two seconds. It stops pain, the corn begins to shrivel and disappears. It never fails. Simplest thing you ever saw. No tucks, no ointments, no greasy salves, no cutting flesh "peely" flesh, no noisier that make corns bulge out, hurt your heart, puff and hurt you to your heart. Lay aside your knife and razor. No more digging and tugging and wincing, no more bleeding, no more danger of blood poison. GETS IT never hurts badly (fresh). It is safe, painless, quick, simple, sure. GETS IT is sold at all drug stores. GETS IT is a bottle or sent on receipt of price by E. Lawrence & Co., Chicago.

WEDNESDAY, NOVEMBER 19, 1913.  
**THE TRUTH ABOUT CALIFORNIA**

THE Los Angeles Record has adopted the policy unprecedented in California of telling the truth about conditions on the Pacific Coast, instead of boosting even when boosting means downright lying. For instance, in a recent issue it says:

"Don't imagine it is an easy thing to find a job at good pay in Los Angeles. On the contrary, this is probably the last promising city of its size in the United States for persons who are seeking light employment in the shape of clerking, or bookkeeping, or anything of that kind, as well as lawyers, and doctors, and persons and other professional men, or for people who desire to run a small store of some kind."

This is truly refreshing, and it ought to be beneficial to California as well as to the thousands of misguided people all over the country who are constantly chasing the rainbow to the Pacific Coast. Los Angeles has been persistently boomed and boosted for years, until the belief has become current that it is an earthly paradise where everybody finds health, wealth and happiness. The truth, as everybody knows who has been there recently, is that all Southern California, and especially Los Angeles, has become a rich man's country. There are ten men for every job, and woe betide the man who now goes there looking for employment or for a small business opening, unless he is so fortunate as to have a place already provided for him.

Of course, the greenest fields are always just a little farther away. 'Twas ever thus, and always will be. There are people in Colorado Springs today, plenty of them, who used to think that California offered the most inviting field for the expenditure of their money and energies. They went there and invested their good Colorado money, or sought jobs, or engaged in business. They gave it a fair trial, and finally they came back to Colorado Springs, sadder, wiser, and most of them poorer.

There never was a time when California possessed actual advantages over Colorado. In natural wealth, business opportunities, climate, scenery, in all that goes to make life best worth living, this state, and especially the Pikes Peak Region, is easily in the lead. But it is good to know that even the Californians themselves are beginning to realize that their state is not the whole universe.

## DIVORCE

"The greatest question in the world today, a national crime against childhood, and a confession of failure and weakness by the American people," is the way Bishop McCormick of Michigan characterized divorce a few days ago. It is strong language, but probably not too strong. For authentic statistics show that the divorce evil is far worse in the United States than in any other country in the world except Japan, where marital relations rest on a basis so different that comparisons are impossible.

These figures are from a report of the Federal Census Bureau and cover a period of twenty years, from 1887 to 1906, inclusive. In the United States the number of divorces per 100,000 of population was 73. In France it was 23, in Germany 15, in England 12, in Australia 10, in Italy 11, in Denmark 17, and in Sweden 8. Switzerland, which of all European nations, nearest approaches our divorce statistics, has 32.

True, it is not easy to base accurate conclusions on these figures because of the differing divorce laws in various countries. Our ratio might be no higher than those of some other countries if our laws were more stringent, but that is in itself an argument for better laws. The ease with which the relation may be severed encourages, the evil. As Bishop McCormick puts it:

"The number of divorces granted in America is an evidence of a general laxity of morals, and that we are practicing the grossest polygamy. America is held up rightly as the land of easy divorce. It is not to be ashamed, now it is almost respectable."

and more on the problem of marriage, the world would be better off.

A uniform divorce law, effective in all states, would do much to remedy the evil. Laws to discourage hasty and ill-considered marriages would help. The rest depends a good deal on the sort of home training people have had and their attitude toward the institution of marriage itself.

This afternoon at 2 o'clock the Council will hold a meeting to take up the matter of investigating the municipal coal mine plan. This is a question of great importance to the entire public, and since the meeting is to be open to all comers there should be a large attendance. Within the last six weeks the local operators have advanced the price of lignite from \$3 to \$4.50 a ton, or 50 per cent. There is nothing whatever to prevent still further increases, and if the strike in the southern field continues throughout the winter it is not at all improbable that the local fuel will add another dollar to the price of fuel. Moreover, this condition is liable to recur at any time in the future. Under such circumstances it is the plain duty of the City to determine whether municipal mining is practicable and advisable, and this can only be learned by a careful and impartial investigation.

Juarez, Mexico, across the Rio Grande from El Paso, is the strategic center of the northern part of the country, and its capture by the Constitutionists is the heaviest blow they have yet struck at Huerta. The removal of the embargo on arms and ammunition at this time probably would give Carranza enough advantage to turn the whole course of the war. It is a cheaper and easier method than intervention.

Ramona, the new booze annex to Colorado City, opened Monday night in a blaze of glory, and, according to the papers, "carriages met the cars at Fourth Street to carry patrons." But were the carriages on hand to haul them home after the festivities ended?

This year's corn crop is the smallest since 1903, but its money value is about two and a quarter million dollars greater than ever before. Here is consolation for the farmer whose wheat crop shriveled up in the drought last summer.

The commission men say it will take 75,000 pounds of turkeys to supply the local market for Thanksgiving. Better still is the information that the price is a little lower than it was last year.

## OPEN PARLIAMENT

### THE GETTYSBURG ADDRESS.

To the Editor of The Gazette:  
 I wish to commend your editorial in this morning's Gazette on "The Gettysburg Address Anniversary," except that part which relates to the generally accepted story concerning the writing of the address, which is incorrect.  
 I have before me a fair simile of this address, which shows that it was carefully penned with ink. But proof beyond question is found in the testimony of John Morrow, assistant district superintendent of Pittsburgh, who saw and heard what transpired at Gettysburg on that historic nineteenth of November 50 years ago. I quote his exact language: "He rose from where he was sitting at the front of the platform and took out of his side pocket a sheet of foolscap paper on which his address was written. A great deal has been said, both in print and from the platform, about this paper's being untidy. I wish to state at this point, with all the positiveness of speech at my command, that these statements are untrue. The paper was clean and tidy and written with ink and not with pencil. It had been neatly folded and was in no way crumpled. I know these particulars to be true for I was close enough to see, scarcely two feet away from Lincoln at the time he read the paper."

Mr. Morrow's account may be taken as authentic and conclusive, and I send it to you hoping that it may serve to clear away the mist and fiction which have long surrounded one of the greatest events in our national history. President Lincoln was not so careless as to neglect the preparation of his address until he was well on his way to Gettysburg, or so lacking in good taste as to appear before that great audience with a manuscript of soiled waste-paper.

In the observance of this anniversary tomorrow, let the school children of Colorado Springs be told only the truth.  
 J. W. SCOTT,  
 Principal Lowell School,  
 Colorado Springs, Nov. 18.

### FARMERS AND LOAN SHARKS.

To the Editor of The Gazette:  
 In common with many of our citizens I have been deeply interested in the suggestions appearing in the Open Parliament columns from our worthy townsman, Mr. Henry Sachs, and also the recent action of our Ministerial Association, both looking toward the removal of an evil which has grown in our midst and the betterment of a large class of our citizens who are compelled at times to borrow money, and because of existing conditions, are forced to patronize the "lender of money" known as loan sharks and pay interest of anywhere from 3 per cent to 5 per cent per month or more. The suggestions made are worthy of the most serious consideration and hearty cooperation of all light-thinking people. The writer, however, wishes to make one or two suggestions looking toward the enlargement of the program.  
 While Mr. Sachs does not outline the scope of his plan or go into details, I assume that he has in mind particularly the relief of worthy citizens in our city community. As chairman of the agricultural committee of the Chamber of Commerce and in connection with the distribution of the seed and feed fund of nearly two years ago and also as secretary and treasurer of the Farm Loan company, organized nearly a year ago, I have had ample opportunity to learn that the loan sharks' field of operation is not confined to our city community. The sufferers from this evil practice are to be found in large numbers throughout our rural sections. Scores of our ranchmen have been and are, tied hand and foot by these same loan sharks. I have heard from many of these ranchmen, including widows, a story of bondage and oppression as cruel and unjust as was ever known in Egypt in the days of the Pharaohs.  
 The Farm Loan company was organized for the purpose of lending our ranchmen to get a few hundred dollars to develop their dairy stock raising and agricultural interests at a reasonable rate of

interest, but it has been necessary in many cases to first untie the "tyranny" by giving one of these 50 per cent per annum "loan shark" notes. I have a nice collection of these character revealing notes in my office and am not averse to showing interested people to inspect them. Let me suggest, that the program for the stamping out of this evil be made large enough to comprehend the needs of city and country and that Mr. Sachs' plan and that of the Farm Loan company be merged and when so united, be linked to our existing banking system with its unused millions of surplus capital by some sane and safe plan to be worked out by all parties interested in the betterment of our fellow citizens in Colorado Springs and the regions round about.  
 JOHN LENNON,  
 Colorado Springs, Nov. 18.

### THE LOAN SHARK PROBLEM.

To the Editor of The Gazette:  
 In yesterday's morning paper, I was very much gratified to note that the ministers of the city or county or taking an interest in the proposed social welfare bank, for the purpose of making loans to worthy individuals at consistent rates of interest. If it should be ultimately decided that I am to take some active part in the affairs of the proposed bank, it will be my purpose to enforce recognition only to worthy individuals, with the hope that those who are not considered worthy will eventually prove themselves entitled to consideration of the proposed bank.

You will note that I lay considerable stress on those who are worthy, but I thought it only fair at this time to say something in explanation of those persons who are making loans to unworthy individuals at high rates of interest. If high rates were not charged by these money lenders in such cases, it would be absolutely impossible for them to secure themselves in any money at high rates of interest to worthy individuals with good collateral, and loaning money to unworthy individuals, therefore, these money lenders are obliged to charge seemingly unfair rates in such cases.

There are persons who live extravagantly beyond their means, who gamble, and there are others who speculate at times when their means do not permit of doing so and who would be considered unworthy of a loan from the social welfare bank. The little interest that I have shown in this matter, I would like to have known to be an unselfish one, and my attitude should be considered as not personal against anyone. I simply wanted at this time to draw the line referred to above.

Colorado Springs, Nov. 18.  
 HENRY SACHS.

### THE STRIKE.

To the Editor of The Gazette:  
 Much has been said and written on the coal question by the casual contributor to the editor, the combined editorial brain force, and so on up to the executive of our state. Suggestions of diverse forms have been formulated, but did it ever strike you that very little analytical force has been displayed by the outside participants in this controversy?

So far it is called the miners' strike; it is not just as much the coal operators' strike? We have gone more than half way to meet them, but they have not moved and will not move one inch to meet us.

Where two parties in interest are at variance, those two parties must get together and reach a mutual agreement before the breach can be healed. Our side, through our international vice president, Frank J. Hayes, has made overtures and offers to meet the operators and settle our differences in a businesslike way among ourselves, and then, if an agreement cannot be reached between operators and miners, to leave the issue to arbitration—the arbitrators to be mutually agreed upon and the miners to resume work immediately with the understanding that the findings of such arbitration board should date back to the time "Law" work was resumed.

To all this we got only a cold shoulder and a deaf ear. As it looks as though the mine owners are just as much on strike as the mine workers. As for their interest in the dear public, they make the dear public pay dearly and who gets the proceeds? Not the miner.

Let us analyze a little further. Does it not strike the dear public as strange that, although the governor stood like a wall of adamant against calling out the militia as well as the Baldwin thugs and guard desperadoes had the upper hand and abused and mistreated men, women and children and abused their ability to hold their own he called out the militia? Instantly, funds or no funds—does it not strike the dear public as strange that then the debt incurred in supporting the militia to fight for the unreasonable striking coal operator should be added upon the state and the dear people of Colorado? Oh, it's great!  
 DAN O'LEARY,  
 Colorado Springs, Nov. 18.

## DINNER

BY GEORGE F. W. III  
 Author of "At Good Old Brawl"

Dinner is the process of having in enough fuel to keep the human machine steamed up until supper or breakfast as the case may be.

In some layers of society dinner comes after breakfast; in others before. Some people eat dinner in evening clothes and spend the night digesting; others eat dinner in their shirt sleeves and go back to work at 1 o'clock after a pipe in the shade.

In fact, the great Chinese wall of society lies between the people who dine at night and those who eat dinner at noon. Dining at night is more fun than eating dinner at noon, but it is also more dangerous. All the expensive watering places of the world are full of people who are getting cured of the effects of eating dinner at night. There are few more delightful propositions than that of acquiring digestion in this manner.

Dinner varies from a duty to a ceremony. A dinner that is a duty can be shoveled down in 10 minutes if both elbows are propped securely on the table and the extra knife does not slip at a critical point and cut off his features. A dinner that is a ceremony lasts from 7:30 p. m. until the hostess can stand it no longer. It sometimes keeps a dozen cooks busy all day preparing a dinner for half a dozen people to be eaten in the evening, but if the housewife can get the potatoes peeled and the water by 11 o'clock in the morning she can generally get a 13 o'clock dinner on the table by the time the noon whistle blows.

Evening dinners are very delicate, and people spend about a sixth of their lives eating them and another sixth later on recovering. A man usually pays for his evening dinner, if he eats it at noon. But there are men who eat evening dinners at the lunch or dinner day after day for years and it never costs them anything except perhaps a couple of dollars a night for taxi fare.  
 It is the aim of all men to become so successful that they can in time eat dinner in the evening and spend until 1 a. m. the next day getting over it. And the average man tries to reach this height in the past dinner week. And the afternoon and the past dinner week is hard for enough appetite to tackle another one.

## ODDS AND ENDS

Texas is willing to fight Mexico single-handed. President Wilson might let 'em at it.

Maybe there was wisdom in Governor Ammons' failure to call the legislature together. From replies made to the inquiry as to an extra session the Colorado Democratic party seems to be absolutely demoralized, leaderless. No wonder the demand for the Progressive party in Colorado is increasing!

From Governor Ammons' down there doesn't seem to be a Democrat who has any plan for the settlement of the coal strike—and the best any of them can suggest is to let things drift. Meantime the consumer pays the bills.

It will be remembered Governor Ammons made his campaign almost solely on a platform of economy. He hadn't realized much in that direction anyway, and now the strike means a big addition to Colorado's debt.

Having discovered that tariff revision, contrary to promise, doesn't control the trusts, Democrats are now promising that currency reform will do it. But they will be as disappointed after currency reform as after tariff reform. There is only one way to control the trusts, and that is actually to control them.

Dean C. Worcester, former member of the Philippines commission, says Wilson's policy will cause trouble in the islands. It is already doing so.

Senator Martine of New Jersey has announced himself an opponent of equal suffrage. But Senator Martine had no political future anyway.

The press reports of the opening of Ramona were deficient in that they failed to specify the number of drunks manufactured in the saloons of the new booze town.

If you have any data on the cost of mining coal, and if you want to see a thorough investigation made of that problem, you should be at the meeting of the city council this afternoon at 2 o'clock.

Grand Junction proposes to build an automobile road into the Paradise valley south of there. The rich radium mines in the world are being opened up there, 50 miles from any railroad.

The Sunset line strike has already been settled. But the railroad officials were willing to meet the representatives of the union. The Colorado coal strike could be settled just as easily if only the operators would meet the union officials.

Ready wants to be governor. The very thought of the possibility almost makes one want to move out of the state—Canon City Record.  
 Will it move you to vote the Progressive ticket to avoid it?

Agreed once again to meet the labor lead—in debate and flunked—Denver Post-Record.

Wanted: he merely refused to speak from the same platform with a "foreign agitator."

The Pueblo Chieftain bitterly opposes Representative Thomas' suggestion that the legislature should be convened in special session to end the coal strike on a basis fair to all. Of course, the Chieftain has always opposed all fundamental reform; compulsory arbitration might destroy the "rights" of the operators to pay and to charge what they please.

The Chieftain merely suggests that the governor pursue his policy of keeping the militia in the field, so that they who wish may work. Does the Chieftain know how long the militia will be needed, or what the cost will be to the state?

These eleven Colorado editors still think that all they have to do is to speak and the thing is settled. Is there anything in the state constitution that delegates legislatively, administrative and judicial power to the editors?

A Pueblo Star-Journal reporter finds that the investigators for the state board of charities and corrections were wrong in condemning conditions at the state reform school. The Star-Journal declares that everything is lovely at Buena Vista, and that Warden Stewart is the man for the place. And the two-column story isn't marked "ad."

The Rocky Mountain Herald claims that if the old line and progressive Republicans get together and present a solid front at the next state election there will be nothing to it but the shouting. Right? But how on earth are they going to turn the trick?—San Miguel Examiner.

That's the problem that's keeping the best sugar trust, the coal operators and other interests awake at nights.

Colorado Springs Gazette advises the Association League to get behind the Progressive party if they want national antislavery laws. The Bull Moose does is a panacea for all government ills except the harvest trust. Shake well and then throw the whole works in the ditch.—Durango Democrat.

Well, the Democratic party now has the handling of the harvest trust, and will soon see how far prices are lowered, wages increased and quality bettered as a result of "disolution."

## THE EARLY DAYS

THIRTY YEARS AGO TODAY TWENTY YEARS AGO TODAY

NOVEMBER 19, 1913.  
 An ordinance introduced by Thomas Jones, M.D., forbidding the sale of liquor except on physician's prescription, was passed by the council, whereupon Jones urged that the police force could be cut in half.

Colonel and Mrs. D. C. Dodge were down from Denver. They came on a special train.

The firm of Hooper & Taylor failed for \$1,000.

## Railroad to Help the Small Farmer

SANTA FE'S SYSTEM WILL TRY TO PREVENT WASTE OF PRODUCTS

From the New York Sun.  
 TOPPEA, Kan.—E. P. Ripley, president of the Atchafalaya, Topka & Santa Fe Railway company, while on an inspection trip over the Kansas lines of the railroad, stopped the other day at the little city of Carbondale, in the eastern part of the state.  
 A woman with a wagon partly filled with peaches drove along the road near where Mr. Ripley's business car stood, and J. R. Koons, the Santa Fe's general freight agent, asked her what peaches were worth.  
 "These are not worth anything," the woman replied. "I can't give them away in Carbondale. I am going to feed them to my hogs."

In the morning of that same day President Ripley had paid a nickel a piece for peaches in Kansas City. The incident made a deep impression on the mind of President Ripley and within a few hours an investigation was begun which revealed some startling facts and culminated in the issuance of a policy to combat in the Santa Fe railway's economic evils such as that recorded at Carbondale.

Millions in Waste Products.  
 Agents of the Santa Fe found upon careful inquiry that millions of dollars' worth of vegetables and fruit annually go to waste in the United States for want of a market. The farmers who raise a carload of stuff can dispose of it without difficulty, but the producer with less than a carload often suffers loss, for the home market like it is glutted as the woman with the peaches found the Carbondale market.

The hauling charges to distant markets, with the expense of selling in small quantities, consumes the difference between the cost of production and the selling price. That is why great quantities of fruit and vegetables rot on and in the ground every year. It is the reason thousands of farmers give up not raising any fruit and vegetables for the markets. Nearly every community has prosperous farmers who do not even raise vegetables for their own tables.

The investigation also showed that for several years the cities of the United States have been short thousands of carloads of vegetables and fruit, notwithstanding the fact that the producing power of soils in this country is equal to that of any nation on earth.

The rush from farm to city is responsible for the constantly increasing number of consumers, and a corresponding shortage of the most careful consideration.

President Ripley, believing that the railroads are in position to assist materially in the adjustment of the difficulty pointed out, is sending a message to farmers in his territory to include garden truck and fruit in the scheme of crop diversification and increase their acreage. The Santa Fe will install a special refrigerator service for the purpose of picking up their products in small quantities and transporting them to profitable markets.

Conferences With Farmers.  
 Mr. Ripley's message is carried direct to the farmers by officials of the railroad who arrange to meet the producers in conference at convenient places, in the town, commercial club rooms, in country school houses and in farm houses.  
 These officials give the farmers detailed information about the supply and demand for vegetables and fruit, the location of available markets

### DICKENS' GUEST ROOMS

From an Exchange.  
 Dickens, who traveled much and suffered many bedsores, gave special regard to the equipment of the guests' sleeping apartments in his famous home, Gad's hill. In "Charles Dickens as I Knew Him," Charles Dolby records: "Each of these rooms contained the most comfortable of beds, a sofa, an easy chair, cane-bottomed chairs—in which Mr. Dickens had great belief, always preferring to use one himself—a large-sized writing table, a large-sized writing paper and envelope, a large-sized pen, and an almost daily change of new quilt pens. There was a miniature library of books in each room, a comfortable fire in the center, with shining copper kettle, cups, saucers, tea caddy, teapot, sugar and milk."

## DIVIDENDS FOR YEAR PASS MILLION MARK

Ray Copper Report for Last Quarter Shows Profit of \$611,085

The Ray Consolidated Copper company realized a total operating profit of \$611,085.08 during the third quarter of the year, according to the report of President Sherwood Aldrich of Colorado Springs and D. C. Jackling, managing director, of Salt Lake City. The total dividend for the year was brought up to \$1,087,558.91 by a dividend last September of \$343,902.63.

The report of the company for the third quarter follows:

November 1, 1913. To the Stockholders of the Ray Consolidated Copper company. We submit herewith a statement showing the operating results of your company for the third quarter and the fiscal year, 1913.

The total production of copper contained in concentrates for the quarter and compared with the previous quarters is as follows:

First Quarter 1913.	Pounds.
January	3,688,006
February	4,077,818
March	4,422,872
Total	12,188,696
Average monthly	4,129,552

Second Quarter 1913.	Pounds.
April	4,514,565
May	4,949,217
June	4,392,912
Total	13,856,694
Average monthly	4,618,898

Third Quarter 1913.	Pounds.
July	4,087,804
August	4,401,565
September	4,470,551
Total	12,959,920
Average monthly production	4,319,973

In addition to the copper contained in concentrates, there was produced 54,440 pounds of copper from ores shipped to the smelter. This production combined with that derived from concentrates makes the total copper production for the quarter, 13,053,560 pounds.

The total amount of ore milled for the quarter was 375,190 tons, averaging 1.72 per cent copper, as compared with 357,877 tons, averaging 1.70 per cent copper for the second and 337,205 tons, averaging 1.74 per cent copper for the first quarter. This tonnage indicates a daily average tonnage of 6,252 tons for the third quarter, 6,460 for the second and 5,949 for the first.

**Operating Costs Higher.** The average mill recovery for the quarter was somewhat lower and the operating costs slightly higher than for the previous quarter. This was due in part to the shortage of water during the summer months, the season having been an unusually dry one. As compared to the previous summer seasons since the beginning of our operations, our water supply is obtained from wells in the vicinity of the Gila river, instead of being taken directly from the river on account of the large amount of sand and mud carried at times by the river water. There is ample water available and we were only short during the period under discussion because wells had not been provided to supply the necessary output in such a dry season. Additional wells have since been driven and sufficient water developed for all purposes under any conditions.

The increase in operating costs was largely due to some rather important improvements in the mill, the costs of which were absorbed as operating expenses. The average mining and coarse crushing cost was 76.45 cents per ton. Of this amount about four cents was charged to coarse crushing, leaving the net amount of mining cost for the quarter about 72.45 cents per ton. The underground development for the quarter amounted to 19,160 feet, bringing the total development to date to 355,000 feet.

The ore body tributary to the No. 1 shaft produced 67 per cent of the quarter's output; that tributary to the No. 2 shaft, 29 per cent and that tributary to the No. 3 shaft, 4 per cent.

**Costs More to Produce.**

The average cost per pound of net copper produced for the quarter, after allowing for smaller deductions, and applying the earnings of the Ray & Gila Valley railroad as a credit, was 10.15 cents, as compared with 9.58 for the second and 9.06 for the first quarter. This increase per pound cost was due almost entirely to the increased milling expense noted above. The average cost for the three quarters is 9.725 cents. These costs include all operating and general charges, as well as 12 1/2 cents per ton of ore treated, equivalent to 0.567 cents per pound for the nine months' period, which is applied to the extinguishment of mine development expenses.

The financial results of operations for the quarter are as follows: The dividends of the Ray & Gila Valley railroad, being included in operating profits.

Operating profit for the quarter	\$651,539.90
Miscellaneous income	9,425.18
Total	\$661,065.08

These earnings are based upon a price of 15 cents per pound for copper. The total amount of copper on hand and in transit, sold and unsold, at the close of the quarter was 11,620.23 pounds. The unsold portion of copper on hand and in transit is inventoried at 13.15 cents per pound.

The second quarterly dividend was paid September 30, amounting to \$343,902.63, making the total disbursements to date this year \$1,087,558.91. The capital stock issued at the dividend was declared was 1,450,507 shares. There was converted during the quarter \$11,500 par value of bonds, leaving \$2,525,500 par value outstanding.

The close of this quarter witnessed the completion of practically all construction and on October 4 the eighth and last section of the mill was put into operation and all units have been in use as required since that date.

Respectfully,  
SHERWOOD ALDRICH, President.  
D. C. JACKLING, Managing Director.

**NEW HOME OF K. F. LODGE TO BE OPENED TONIGHT**  
The Knights of Pythias of Colorado Springs lodge No. 34 will celebrate the opening of their new home on Bijou street with an entertainment and ball tonight. Majestic hall, which the Pythians purchased last summer, has been remodeled by the lodge and the upper floor fitted up handsomely for lodge rooms. An address on "Pythianism" will be delivered by Dr. W. A. Campbell tonight preceding the entertainment.

## INDIGESTION, GAS, DYSPEPSIA GONE

"Pape's Diapepsin" fixes sick, sour, gassy stomachs in five minutes

Wonder what upset your stomach— which portion of the food did the damage do you? Well, don't bother. If your stomach is in a revolt, if sour, gassy and upset, and what you just ate has fermented into stubborn lumps; head-dizzy and aches; belch, gases and acids and eructate undigested food; breath foul, tongue coated just take a little Pape's Diapepsin and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your lightest food without rebellion, if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. Please, for your sake, don't go on and on with a weak, disordered stomach; it's so unnecessary. Adv.

## HIGH SCHOOL OPERETTA WILL BE GIVEN FRIDAY

Dress Rehearsals of "Nautical Knot" Pass Off Smoothly and Predictions Are That Play Will Be Success.

A dress rehearsal was held last night of the operetta, "The Nautical Knot," which will be given in the auditorium at the High school Friday night by students of the school, under the direction of Miss Evelyn Lewis and Frank Stillwell Moore.

Everything passed off smoothly, and the solo work of the two girls who will essay the leading roles of Julia and Miss Ruth Campbell, respectively, is especially good. Another attractive feature will be the chorus of 50 voices which is in excellent training.

The play will be produced in this city by special permission of J. Fletcher & Bros., proprietors, New York city.

**MAX SHIPPEE**

**CITY HAS SOLD MORE THAN HALF OF NEW BOND ISSUE**

Success of Disposing of \$210,000 Issue to Private Purchasers Exceeds All Expectations.

The 4 per cent water and city hall refunding bonds issued October 1 by the city have been taken up by local purchasers and \$121,800 worth of the total \$210,000 issue has been sold—\$91,800 worth of water bonds and \$30,000 worth of the city hall bonds. The water bonds have been disposed of first, and at present there is only \$2,200 of these bonds left out of the \$100,000 issue. Of the \$110,000 issue of city hall refunding bonds, \$30,000 worth have been sold. However, these latter bonds have not been pushed as yet, and now that the water bonds are practically out of the way, it is expected by City Treasurer Bartholomew that they will all be sold by Thanksgiving.

So far practically all of the bonds sold have gone to home buyers. The largest single purchase was \$30,000 worth of the city hall refunding bonds, bought by a local business man. No trouble is anticipated in disposing of the remaining bonds, for all not taken by local investors can be placed on a ready market.

It has been suggested that guayana, a very hard wood of Central America, may furnish shuttle blocks to supplant dogwood and persimmon, now used for such purposes, and in danger of becoming exhausted.

**She Stayed In Bed**  
Ingram, Texas. "Ever since I became a woman," writes Mrs. E. M. Kemax, of this city, "I suffered from a nervous condition. Last fall I got so bad, I had to stay in bed for nearly a week every month. Since I have taken Cardui, I feel better than I have for years. You can rely on Cardui. It acts on the woman's organs and helps the system to regain its normal state of health, in a natural way. Prepared especially for women, it prevents womanly pains by acting on the cause, and builds up womanly strength in a natural way. Purely vegetable. Mild but certain action. Try it. Adv.

**REST LAW NOT NEEDED IN COLORADO SPRINGS**

Assistant City Attorney Takes Above View Concerning Ordinance Providing for One Day of Rest in Seven

With but a comparatively small laboring class, Colorado Springs has no need for a one-day-in-seven rest ordinance, in the opinion of Assistant City Attorney J. L. Bennett. In making the statement, however, Mr. Bennett declared that he did not mean to imply that the rest ordinance, passed several months ago, is not constitutional. On the contrary he believes it to be entirely constitutional, but, impossible of enforcement.

Attorney Bennett has advised the city council not to appeal from the decision of Judge Kinney holding the ordinance unconstitutional. The commissioners have as yet taken no action in the matter, an expression from the ministers who fostered the ordinance being desired. The Civic League, it is said, is drawing up a new rest ordinance, but when the measure will be presented to the council is not known.

In defending his position in declaring that a rest law is not needed in Colorado Springs, Bennett said:

"Laboring classes are satisfied with conditions as they exist, so the measure, which is primarily for the laboring man, can do no good. There is not a large number of factories here and Colorado Springs people are not troubled with employers of many workmen refusing to grant a day of rest."

"Not only would the present ordinance not be of benefit, but it would actually work a hardship on many. Numerous small business houses have an agreement with their employees that they shall work seven days in the week, but shall have shorter working hours. To compel these men and women to rest one day in the seven would be to reduce materially their weekly wage and cause dissatisfaction not only with the employer but the employee."

**WOMAN MAY ESTABLISH AN ALIBI FOR HARRY HILLEN**

Mrs. W. H. Dunnington of Pueblo Says Cliff House Suspect Was at Her Home Night of Shooting

According to word received yesterday from Denver, Mrs. W. H. Dunnington of Pueblo has arrived in Denver and claims that Harry Hillen was at her home in Pueblo at the time Albert Whitehead was killed at the Cliff House in Manitou, last July. Mrs. Dunnington spent two hours yesterday at the Denver county jail, pleading with Hillen to "tell the truth" and save himself.

Edgar Cuyless, Hillen's attorney, has announced that he is in a position to prove that Hillen was not in Denver at the time Thomas J. Chassey was murdered, nor in Manitou when Whitehead was shot by a man who has been identified by E. J. Nissey, chief at the Cliff house, as Hillen. Mrs. Dunnington claims that Hillen was cashier at Langley's grocery store in Pueblo at the time of the Manitou murder.

The city council, meeting in committee of the whole this afternoon, will consider the question of a municipal coal mine which has been urged by the El Paso County Progressive club. Victrola will be allowed at the meeting and citizens will be given an opportunity to present their views on the subject.

To secure a merit badge in forestry, boy scouts are required among other things, to identify 25 kinds of trees.

**Aunt Sally's Advice to Beauty Seekers**  
Red Nose. The nose is a more delicate organ than most people imagine. It should be touched as little as possible. For undue redness the treatment recommended in following paragraph will be found effective. Apply without rubbing.  
Moist Skin. The sanest, safest and surest method of giving a clear, healthy, transparent appearance to the complexion is to apply ordinary mercantilized wax every night for from one to two weeks. This wax, obtainable at any drug store, once applied, is sufficient to actually take off a bad complexion by gently and gradually absorbing the thin veil of surface skin. The new skin then in evidence is as fresh and velvety as a young girl's. The wax is applied in a cold cream and washed off in the morning.  
Wrinkles. A harmless lotion made as follows has been found very effective in cases of wrinkles and crow's feet: Powdered azoxite, 1 oz.; dissolved in witch hazel, 4 pt. Rub the face in this daily for awhile. Woman's Realm. Adv.

**Derngood Purpose**  
A steadfast purpose to make perfect a coffee that will give you satisfaction on any of our grades has inspired us to unprecedented efforts. It has resulted in the building of a sanitary plant that permits the extraction of a coffee previously unrealized. The process is still previously developed. Therefore you have a coffee delivered at your door that has been scientifically roasted and of such quality that you cannot duplicate it. Your taste demands a pound.

## 'S LICENSE TO MARRY

WIFE WHO HAS LEFT HIM

in Believed-Permit Issued Here Would Compel Former Bride To Return To Him

Thinking that by obtaining a marriage license, he could get back his wife who had eloped with another Mexican appeared at the office county clerk yesterday. With in his eyes, he explained that his troubles had caused his wife's interest in him and he half-jokingly told that he could not get a marriage license when he was married.

English, and answered the question to him through the aid of an interpreter. The clerk, when asked that the name of the prospective bride and groom were the sought to make sure that the names were not related. When she said that they were man and wife, said the license book.

Mexican said that he was married several years ago in Old Mexico, thought that by getting an American marriage license, he could come a wife to return to him, and the issuer of her affections to

**IF KIDNEYS AND  
BLADDER BOIL**

**TAKEN STEPS TO FLUSH KIDNAPERS  
AND NEUTRALIZE INSTANT-  
LY ACIDS**

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and

larvae, causing a burning, stinging sensation, or setting up an irritation at the neck of the bladder, obliging the sufferer to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it's extremely annoying and sometimes very painful, this is really

one or the most simple ailments to treat. Meet about four ounces of Jad Salts from the bottle and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which

then act harmfully again

Jad Salts is inexpensive, harmless, and is made from the acids of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no

and a half acre of rich land, close to  
Palmer boulevard with 4-room house,  
city water, stable or horses and cows,  
chicken house, good neighbors and a  
chance to make a good living raising  
chickens and vegetables.

\$600  
will give you deed to it, and the day  
of living in the open and, incidentally  
pay your grocery, meat and milk bills.

JOHN LENNOX  
Agricultural Lands and Investments  
228 N. Tejon St.

## BUY FROM OWNER

A wise buyer will look to the east  
side in selecting a home. Now, if you  
are looking for a good home of five  
rooms, almost new, modern except  
bath, with lots of yard, and garden  
with chicken runs, etc., near two car  
lines and Columbia school, it will pay  
you to investigate. No trades consid-  
ered. Write owner, L-13, Gazette.

THREE 30-acre tracts fine irrigated  
land, situated in the famous Rio  
Grande valley, Texas. Under one of  
the most extensive irrigating systems  
in the United States. Winter wheat,  
alfalfa, etc. \$10 to 15 in cutting of  
alfalfa yearly. Will sell part or the  
whole. MIGHT consider good income  
Colorado Springs property. \$200 per  
acre. C. C. Bracey, care F. W. Wool-  
worth Co., 18 and 20 S. Tejon.

## WANT TO GO TO FARMING?

If you do, I have a very fine propo-  
sition to make with right party.  
Will sell horses, cattle, implements,  
chickens, etc. and lease with option of  
purchase, one of the best farms in the  
county. CHAS. GLASGOW, 313 Burns  
Bldg., Residence, 2204 N. Nevada.

FOR SALE—Irrigated stock ranch,  
cheap. Inquire Burns, police depart-  
ment.

6-ROOM modern house, \$2,000. For in-  
formation call 214 Cheyenne Ave.

FOR SALE—6-room modern except  
heat. 107 S. 7th. Easy terms.

NEW 5-room bungalow; everything the  
best. Owner 414 S. Tejon St.

### Colorado City News

#### K. P.'S GIVE SMOKER

21 Paso lodge, No. 47, K. of P. entertained members and friends of the lodge with a smoker Monday night in Templeton hall. The affair was delightful and a good athletic and musical program was given. F. E. Schreiner, grand vice chancellor of the grand lodge, K. of P. of Colorado, was the principal speaker of the evening. An address was also made by C. F. Ricker, organizer of the D. O. K. K.

Mr. and Mrs. Roy Pearson are visiting with Mr. and Mrs. Charles Kintner at Florence, and intend to make a stay of two weeks. On their way home they will visit with Mr. and Mrs. Leo Kintner at Pueblo.

The Women's guild of the church of the Good Shepherd will give a tea at the parish house the afternoon.

Mrs. J. L. Terry is home after a few days' visit at Lytle, Colo.

Was not threatened against Tampico, Mexico, according to word received from H. M. Stuntz, son of the pastor of the Methodist church. It has been discovered recently in that vicinity, he says.

Douglas Fine Chocolates, for those who care at C. M. Sperman's.

Mrs. T. L. Van Dusen of North North street, as in St. Francis hospital, where she is entirely recuperated an operation.

#### THEY ARE COMING
